

NAVAL 1ST PATTERN E-BOAT WAR BADGE (1941-42) (Schnellboot-Kriegsabzeichen) Schwerin

Description

On May 30, 1941, members of Germany's Schnellboot Service received a badge of their own (previously wearing the Destroyer War Badge). The Peekhaus *First* design reflects a high speed silvered E-Boat cutting through darkened waves, surrounded by a gold wreath, and surmounted by the gold national emblem.

Remarks

A highly reproduced badge, the First Model EBoat Badge has several authentic characteristics. One of these is the reverse 'scoop'. Both the exact location and depth of the rear-viewed 'scoop' (recess) aid in providing authentication.
